INTRODUCTORY

This is the first edition of the San Jose and Santa Clara County Directory, published by the Polk-Husted Directory Company. It is not, however, a new business to this firm, for the Polk-Husted Directory Company is an affiliation of two of the oldest directory publishing houses in California and in the United States. R. L. Polk & Company have been publishing City and County and State Directories in California for nearly thirty years. Mr. F. M. Husted has been publishing directories in this State for some twenty odd years, and the two firms have now joined forces, making one of the strongest Directory companies in America, greatly to the benefit of California.

The information for this publication has been gathered by a personal canvass from house to house—all the dwellings, from the palace to the hovel, and to all the offices, stores, factories and every nook and corner of San Jose and all of the villages in the County.

The work of gathering and compiling this data has been done by men who make a business of this line of work, all of them having had the same experience in other cities and villiages, sufficient to make each and every one of them thoroughly qualified for the work. The old saying, "Every man to his trade," applies with full force to Directory making, for there is nothing more intricate and complicated; in no line of business is experience more necessary; new men make a sad failure of gathering names and data for a directory.

The experience of the past years devoted exclusively to Directory making has been used to excellent advantage in the compilation and publication of the San Jose and Santa Clara County Directory, and it is confidently believed that this publication will elevate the standard of Directories in California, and it will be found the equal, if not the superior, of any similar publication in America.

The Directory is a necessity in modern, business and social life; every one is represented in it. No publication has a more general every one is represented and interested in it. No publication has a more general or more extended use, and each succeeding year has found the Directory more popular and important. It is used all the while by all the people, at all seasons of the year, not only by the residents of the County, but by those who come from beyond the County limits, and by those who consult the Directory libraries, where are contained the Directories of all the principal cities and States. These libraries will be found generally throughout the large cities of

this country, and residents of New York, San Francisco, New Orleans and Alaska may find information concerning San Jose and everything in Santa Clara County as easily as those who live within the city limits. The publishers maintain offices generally throughout the United States; it is their intention to provide all their offices with copies of these directories and to apply them to every Directory Library in the United States, which will make a very valuable advertisement for Santa Clara County.

POPULATION.

It is quite an important matter to know whether the city is growing or decreasing. It is like the merchant's annual trial balance; it shows exactly the political and business condition and the future prospects for the people of the community.

Nothing in life remains stationary; everything goes forward or backward. If the community grows, success, prosperity and happiness will follow; if it does not grow, it will decrease in population and all the elements of hard times will be present. It is, therefore, a matter of vital importance that a proper census be taken at frequent intervals, and the Directory canvass affords infinitely the best method, and the statistics which the Directory presents to the people annually are fully recognized and appreciated by the Government of the United States, which spends annually millions of dollars for the same class of information, for it shows clearly and definitely the actual condition of the city and the county, the people and their institutions, and suggests what the future may bring forth.

The San Jose portion of this Directory, contains 23,128 names, which multiplied by $\frac{2}{3}$, the figure which is generally found to accurately represent the names of women and children who are not included in the directory canvass, represents a population of 57,820.

The publishers take pleasure in returning thanks for the patronage bestowed upon this publication, and assurance is hereby given that the work will appear promptly hereafter at regular periods, and that each succeeding will be better than the one before.

Registered Matter—8 a. m. to 6 p. m.

POSTAL RATES AND CLASSIFICATION OF MAIL MATTER.

Domestic mail matter, that is, mail matter sent in the mails from some postoffice within the United States to some other postoffice within the same, is divided to four classes, as follows:

FIRST-CLASS MATTER.

Rate of Postage: Two cents for each ounce or fraction thereof.

Written matter, namely letters, postal cards, and all matter wholly or partly in writing, whether sealed or unsealed—except as provided below—and all matter, sealed or otherwise closed against inspection, is of the first class.

Postal Cards—Advertisements, illustrations or writing may appear on the back of the card and on the left third of the face. Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substance are unmailable except when inclosed in envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Private Mailing Cards—Mailing cards other than government postal cards may be sent through the mails at the rate of one cent apiece, payable by stamps to be affixed by the sender. Written messages may be sent on these cards when they are made to conform to the following restrictions: Such cards must be approximately of same form, quality and weight as the stamped postal cards now in general use, not exceeding 3 1-2 by 5 1-2 inches, nor less than 2 15-16 by 4 15-16 inches. The color of the cards may be white, cream, light gray, or shade of the government card. There may be on the message or address side advertisements, illustrations, or other matter printed in black or colors; written messages permissible on address side. Ordinary mailing cards, when the message is entirely in printing, are not restricted to the above conditions. They may be of any size, but are not entitled to the words "Post Card."

SECOND-CLASS MATTER.

Rate of Postage to Publishers and News Agents: One cent per pound or fraction thereof. To individuals, one cent for each four ounces or fraction; fully prepaid by stamps affixed.

Second-class matter is of two kinds. First, that sent by publishers or news agents; second, that sent by other than publishers or news agents.

Mailable matter of the second-class embraces all newspapers and other periodical publications which are issued at stated intervals and are within the conditions named in the statute.

Statutory. Characteristics of Second-Class Matter.

First—It must be regularly issued at stated intervals, as frequently as four times a year, and bear a date of issue and be numbered consecutively.

Second—It must be issued from a known office of publication.

Third—It must be formed of printed paper sheets, without board, leather, cloth or other substantial binding, such as distinguish printed books for preservation from periodical publications.

Fourth—It must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, arts, or some special industry, and having a legitimate list of subscribers.

What is Permissible to Be Written or Printed Thereon—The name and address of the person to whom the matter shall be sent; index figures of subscription book, either printed or written; the printed or written name of the publisher or sender, or both, and written or printed words or figures, or both, indicating the date on which the subscription to such matter will end; the correction of any typographical error; a mark, except written or printed words, to designate a word or passage to which it is desired to call attention; the words "sample copy," or "marked copy"; and publishers and news agents may enclose in their publication, bills, receipts and orders for subscription thereto.

THIRD-CLASS, PRINTED MATTER.

Rate of Postage: One cent for each two ounces or fractional part thereof, and must be fully prepaid by stamps affixed.

Printed Matter—Is defined to be the reproduction upon paper by any process except that of handwriting, or by the typewriter, of any words, letters, characters, figures, or images, or of any combination thereof, not having the character of an actual personal correspondence. seeds, bulbs and scions are included in third-class matter.

Further Points of Definition—Reproductions from originals, produced by mimeograph or similar mechanical process, easy of recognition, are entitled to pass in the mails in unsealed envelopes as third-class matter, when mailed at the postoffice window in numbers of at least twenty identical copies.

Proof sheets and corrected proof sheets and manuscript copy accompanying the same are rated as third-class matter.

Main Office: 1325 Mission Street, San Francisco,

Permissible Writing—Upon matter of the third class or upon wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct any typographical error. There may be placed upon blank leaves or cover of any book or printed matter of the third class a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope or third-class matter mailable as third class, there must be left on the address side space sufficient for a legible address and necessary stamps.

FOURTH-CLASS, MISCELLANEOUS MATTER.

Rate of Postage: One cent for each ounce or fractional part thereof.

Mailable matter of the fourth class embraces all matter not embraced in the first, second, and third class, which is not in its form or nature liable to destroy or deface or otherwise damage the contents of the mail bag or harm the persons of any engaged in the postal service, and is not above four pounds in weight for each package thereof, except in case of single books weighing in excess of that amount.

Examination—All matter of the fourth class shall be subject to examination.

How Enclosed—Articles of merchandise must be wrapped or enclosed in such a manner that their character can be easily ascertained. In the case of such articles as medicine, powders, tobacco, cigars, fancy soaps and the like, postmasters will accept them when mailed in their original wrappers and so sealed or enclosed as to properly protect the articles, so that each package in its simplest mercantile form or unit of measure may be examined.

Permissible Writing or Printing Upon or with Fourth-Class Matter—With a package of fourth-class matter prepaid at the proper rate for that class, the sender may enclose any mailable third-class matter, and may write upon the wrapper or cover thereof, or tag or label accompanying, the business address, preceded by the word "from," and any marks, numbers, names or letters, for purpose of description, or may print thereon the same and any printed matter not in the nature of a personal correspondence.

Positively Unmailable—Poisons, inflammable or explosive substances and other substances exhaling a bad odor. All alcoholic liquors, live animals or reptiles, dead animals not stuffed, live insects, except bees, comb honey and fruits or vegetable matter liable to decay; letters, pictures or other articles, of obscene or inde-

cent character (sealed or unsealed); also letters or circulars regarding lotteries or fraudulent schemes of any kind, and letters or other articles upon the outside of which appears anything of a scurilous, defamatory or threatening character.

FOREIGN.

THE UNIVERSAL POSTAL UNION includes nearly all foreign countries. The classification of mail is as follows:

Articles for or from foreign countries, except Canada and Mexico, are classified as "Letters," "Postcards," "Newspapers," and other printed matter. "Commercial or business papers," and "Patterns or samples."

The Rate of Postage to the countries and colonies comprising the Universal Postal Union (except Canada and Mexico), are as follows:

Letters—Per 15 grams (1-2 ounce), 5 cents.

Postal Cards—Each 2 cents.

Newspapers and other Printed Matter—Per 2 ounces, 1 cent.

Commercial Papers—Packets not in excess of 10 ounces, 5 cents.

Packets in excess of 10 ounces, for each 2 ounces or fraction thereof, 1 cent.

Samples of Merchandise—Packets not in excess of 4 ounces, 2 cents. Packets in excess of 4 ounces, for each 2 ounces or fraction thereof, 1 cent.

MEXICO AND CANADA.

Mexico—Matter mailed in the United States addressed to Mexico is subject to the same postage rate and conditions as it would be if it were addressed for delivery in the United States, except that articles of miscellaneous merchandise (fourth-class matter) not sent as bona-fide trade samples, are required to be sent by "Parcels Post." See below.

Canada—Matter mailed in the United States, addressed to Canada, is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States. The following articles, however, are absolutely excluded from the Canadian mails, without regard to the amount of postage prepaid, or the manner in which they are wrapped, viz: All sealed packages other than letters in their usual and ordinary form; all packages (except single volumes of printed books), which weigh more than 4 lbs. 6 oz.; "Police Gazette" publications which violate any copyright law of Canada.

Merchandise may be sent in the mails to Canada at domestic rates of postage when not sealed against inspection, subject to the custom duties of that country.

PARCELS POST.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Germany, Jamaica, Barbadoes, the Bahamas, British Honduras, Mexico, the Leeward Islands, the Republic of Colombia, Costa Rica, the Danish West Indies, San Salvador, British Guiana, Windward Islands, Bermuda, Ecuador, Denmark, Peru, Sweden, Trinidad, Chili, Guatemala, Nicaragua, New Zealand, Venezuela, Bolivia, Hong Kong, Japan, Norway, Belgium, Great Britain, Australia and Newfoundland at the postage rates of 12 cents per pound. Parcels for Germany, Hong Kong, Japan, Norway, Belgium, Great Britain, Australia, Sweden and Denmark, must not weigh more than 4 lbs. 6 oz. and must not exceed in value Fifty Dollars each.

GENERAL INFORMATION.

Application for missing letters, papers, and packages mailed at San Jose for other postoffices should be made at the Inquiry window. For mail matter that is held for postage, or is for any other reason unmailable, application should be made at the Package window.

For entry of second-class matter or for information concerning the same or for letters which the senders desire to recall by telegraph before delivery is made to address, application should be made at the Inquiry window.

For stamped envelopes, postal cards, etc., in quantities of 500 or over, application should be made to the Stamp clerk.

Immediate delivery of mail matter by special messenger may be secured by affixing a special delivery stamp in addition to the regular postage at any hour between 7 a. m. and 11 p. m., including Sundays.

Inquiries respecting the arrival and departure of mail should be made at the Inquiry window.

Inquiries respecting the delivery of mail should be made at the office of the Superintendent of Delivery.

For redemption of stamped envelopes which have been spoiled in directing or printing, apply to the Retail Stamp window.

For rental of lock boxes or drawers, apply to the Assistant Postmaster.

For employment of clerks or carriers or information concerning the same, application should be made to the Secretary of the Local Board of Examiners for the Civil Service Commission, or J. A. Ball, General Postoffice.

Penalty of Evasion of Payment of Postage—Any person who shall conceal or inclose matter of a higher class in that of a lower class and deposit or cause to be deposited for conveyance by mail at a less rate

than would be charged for such higher matter, shall, for every offense, be liable to a penalty of \$10.00.

Detention, wrong delivery or loss of mail matter should be reported immediately in person or by letter to the Postmaster. The complaint should be accompanied, if possible by the envelope wrapper or postal in order that an examination may be made of the address and post marks which is essential to satisfactory results.

All transient residents receiving or expecting to receive mail at the general delivery should instruct their correspondents to add to the address of same "General Delivery," which will save from twelve to twenty-four hours in delivery.

All valuable letters should be registered which every carrier is authorized to receipt for at the door of the sender.

SAN JOSE DIRECTORY.

E. H. OWSLEY Plumber and Tinner
Shop N. 13th St., between St. John and St. James Streets, San Jose

gained since 1900, 25,000 population and the city and county are rapidly forging ahead. It is that steady, continual growth founded upon stability that is particularly sought after by capital, realizing that their investments will not fluctuate, but have a continued increase in valuation.

The citizens of San Jose have been laboring under the impression that we have but 40,000 population, but according to the Pluk-Husted Directory Company, they have 23,128 names in San Jose and the immediate adjoining districts, which are virtually a part and tributary to San Jose, and are separated only by a imaginary line.

The national adopted method by directory companies to secure the total population from the number of names printed in the directory is to multiply the number of names secured by two and one-half, which makes the total population for San Jose and immediate adjoining districts 57,820. This rule has proved reliable in every instance, and San Jose is no exception.

San Jose is a modern city. It is justly termed the "Garden City of California." It is strictly up-to-date in all of its appointments and has ample hotel accommodations to handle the throngs of visitors who constantly flock to this city and valley. For a convention city it is unsurpassed, for we now have ample space in our auditorium with seating capacity sufficient to handle the largest conventions. San Jose is the county seat of Santa Clara County, is beautifully located in the heart of the famous Santa Clara Valley, with mountains rising on either side to an elevation of over 4,000 feet. To the east the foothills rise gradually, one oval hill piling over the other until in the distance Mt. Hamilton looms up as a sentinel guarding the busy, peaceful city and valley. To the west the Santa Cruz range rises to an elevation of 4,000 feet, with Loma Prieta in the distance. The hills in the Santa Cruz range rise more abruptly than in the eastern range, and over the ridge on the west side may be found the famous California big trees "Sequoia Sempervirens", which are noted for their stateliness and height as well as diameter.

For railroad facilities no city could be better located. We have fifty trains daily in and out leading into every section of California, and we are now a railroad terminal point, receiving the same consideration in passenger and freight rates as the largest city in the state. From San Jose is shipped annually millions of tons of fruit to all parts of the globe and last year 6,600 carloads of fruit alone were shipped from this city. It is a cosmopolitan center built on beautiful lines with magnificent buildings, a delightful climate, pure mountain water and an abundance of it.

The electric urban and interurban cars furnish pleasant trips to all parts of the valley, while stages run daily to Lick Observatory, on Mount Hamilton, 4,209 feet above sea level, 28 miles from San Jose, over the best mountain roads ever built (cost \$87,000). Daily stage (Mount Hamilton Stage Company); 5½ hours going, 4 hours returning. Luncheon going, dinner returning, Santa Ysabel.

Greatest astronomical observatory, second largest refracting telescope. Endowed by James Lick with \$750,000. One of the greatest attractions of California.

One of the outdoor features is a trip to Alum Rock Park, a city reservation of a thousand acres, where sixteen mineral springs each with its curative properties are flowing free to the public for the taking and here one may fully enjoy the pleasure of an outdoor life.

Another attractive trip is by the interurban electric line to Congress Springs, where one may walk amid the cool shades of dense growth of trees and shrubbery, wild as nature can provide and through all this a veritable lovers' lane winds its way. At the end of this lane may be found the soda springs bubbling and effervescing with nature's chemicals free to the public. Other attractions are as follows:

Old Mission at Santa Clara. Reached by street car from San Jose. Built in 1777. Very interesting.

Ostrich Farm, Alum Rock Ave. A beautiful flock of large birds. Worthy of many hours watching. Keepers are always in attendance to explain the habits of the birds and answer all questions. Don't miss this attraction.

The Triangle. A magnificent valley and foothill drive from San Jose to Mountain View, via Santa Clara and Sunnyvale, returning through Cupertino (West Side), Los Gatos, Campbell, the Dry Creek road, and the Willows. Most comprehensive valley drive.

The Interurban Trip. Over the new Interurban Electric Railway between San Jose and Los Gatos via Saratoga. The finest electric valley and foothill trip in California.

Linda Vista Golf Links. Picturesque golf links in the foothills near Alum Rock Park. Open to club members and guests of leading hotels.

Almaden Mines. The famous old quicksilver mines of California. Eighty miles of tunnels. Fourteen miles by train or team from San Jose. The Hacienda is the most picturesque village in California.

Lomas Azules and Evergreen. A southeast carriage trip of a

was established, the University of the Pacific, and in addition a number of private institutions of learning.

The city is beautifully decorated with shade trees and palms, and there are miles of well graded streets and cement sidewalks. Our public buildings, notably, the Carnegie Library, City Hall, County Court House and Hall of Justice, including our church buildings of every denomination, and bank buildings, are attractive edifices and worthy of note. We have ample amusements in theatres and otherwise so that never a dull moment may be spent in this city. Throughout the county the roads are excellent. We have more than 300 miles of roads which are sprinkled during the summer months and a total of 962 miles of public roads. The following statistics of Santa Clara County may prove of interest to the stranger within our midst or to the residents who may wish to forward this information: Area of Santa Clara County, 1,355 square miles or 867,200 acres; number of farms, 23,456; number of acres assessed, 727,905; value of country real estate, \$21,726,465; of improvements thereon, \$7,386,625; of city and town lots, \$13,060,810; of improvements thereon, \$8,354,995; of personal property, \$4,655,880; total value of all property, \$57,479,365; road levy per one hundred dollars, 40 cents; value of county buildings, \$958,050. We have in the county 6,501,952 fruit trees and in table and wine grapes we have 6,053 acres planted to grapes. Of the fruit trees there are over 53,000 acres alone planted to prunes, and 7,000 acres planted to seeds. We have the largest seed farms in the world. The total production of the county is \$27,129,812. This production is new money made out of the soil or from manufactured products made in the manufactories of the county.

In addition to the attractions presented in San Jose one is in close touch with many smaller cities and towns each with its distinctive attraction and all located within Santa Clara County, within easy reach of San Jose, either by rail or electric road. Each city is named in alphabetical order and its features described in this volume.

Visitors planning a trip to San Jose and Santa Clara Valley should bring their automobiles. All roads are open to automobiles and the city is supplied with garages well equipped for repairs and supplies. We have seven garages and one manufacturing plant, which turns out a high grade machine.

Those not interested in motoring will find ample and reasonable livery accommodations for trips throughout the valley.

It is a Fact

¶ That many San Jose people go to San Francisco, or even send East for many things they can get just as cheaply and more satisfactorily at home. That is one reason why San Jose is called a jay town. If you want to help keep the prosperity ball rolling for Santa Clara County; don't let it occur again.

¶ This is true in all kinds of business. For our own, permit us to give you one or two reasons why you should patronize home industry:

¶ We have the facilities for doing everything in the line of binding. We make blank books of any kind; to your order, ruling the paper in any way you direct. We make flat opening, patent back ledgers, and make them any size or style you wish. If we have any specialty it is complicated special ruling. Any number of colors. We can rule ANYTHING, except those San Jose people who have the bad taste to go to San Francisco for a job of binding when they can get it done right here and done better. We say BETTER because we have the same facilities and we take a local pride in turning out good work.

¶ You have some magazines, music, valuable old books or manuscripts, briefs, abstracts, that you want to keep and that are simply going to ruin, scattered all over the house—why don't you have them bound and indexed. It doesn't cost much and then they will be an ornament to your library, good for a hundred years.

¶ If you like, we can give you an antique binding that will convince anybody that your copy of Shakespeare or Thomas a Kempis was printed in the eighteenth century.

THE ARCHITECTURE OF PRINTING

DURING recent years there has been a gradual but very decided advance in the quality and practical value of the catalogue and advertising matter issued by leading firms. This has been due to the improvements in photo-engraving processes, making possible more truthful and attractive illustrations. An increasing appreciation of the potentiality of the better sort of advertising matter has also been influential in raising the standard. The principal factor, however, in this upward movement has been the rapid development of the designing departments of the leading establishments of the country, and consequent tendency of buyers to seek the advice and co-operation of designers and engravers. Why should not the business of catalogue, birdseye view, label and other designing be put on the same plane as that of the architect of buildings. Try coming direct to the printer's architect?

THE HISTORY OF THE CITY OF BOSTON FROM 1630 TO 1800

BY
JOHN H. COLEMAN
OF THE
BOSTON PUBLIC LIBRARY

The history of the city of Boston from 1630 to 1800 is a story of growth and development. It begins with the arrival of the first settlers in 1630, who founded the city as a haven for Puritans seeking religious freedom. Over the years, Boston grew from a small village into a major center of commerce and industry. The city played a key role in the American Revolution, and its history is marked by significant events such as the Boston Tea Party and the Battle of Bunker Hill. The city's economy diversified over time, with the rise of manufacturing and trade. By 1800, Boston had become a major port and a center of education and culture. The city's history is a testament to the resilience and spirit of its people, who have shaped the city into the vibrant metropolis it is today.

(continued)

100

100

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

100

100

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was plotted against the number of trials for each condition. The number of correct responses increased with the number of trials for all conditions. The number of correct responses was highest for the condition with the highest number of trials (10 trials) and lowest for the condition with the lowest number of trials (2 trials).

THE HISTORY OF THE CITY OF BOSTON FROM 1630 TO 1800

BY
JOHN H. COLEMAN
OF THE
BOSTON PUBLIC LIBRARY

The history of the city of Boston from 1630 to 1800 is a story of growth and development. It begins with the arrival of the first settlers in 1630, who founded the city as a haven for Puritans seeking religious freedom. Over the years, Boston grew from a small village into a major center of commerce and industry. The city played a key role in the American Revolution, and its history is marked by significant events such as the Boston Tea Party and the Battle of Bunker Hill. The city's economy diversified over time, with the rise of manufacturing and trade. By 1800, Boston had become a major port and a center of education and culture. The city's history is a testament to the resilience and spirit of its people.

HEALD'S

SCHOOL OF MINES and ENGINEERING

SAN FRANCISCO, CALIFORNIA

CIVIL AND MINING ENGINEERING

This department has been established to meet the demand for thorough instruction in mining and surveying that will be shorter than the university course of four years. The plan adopted, therefore, is to *specialize* so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full *practical* knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes: Geometry, Trigonometry, Draughting, Strength of Material, Surveying, etc.

The MINING ENGINEERING COURSE includes: Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes: Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world.

The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-ray closet and a large laboratory.—*Send for Special Catalogue of this School.*

NIGHT SCHOOL

To accommodate a large class of patrons who are unable to attend the day sessions, evening classes are conducted in all the departments the entire year. All the facilities and advantages of the day sessions are provided for these classes; the same studies, the same methods, the same practical work. The instruction is individual and every attention is given to those whose education has been neglected.

Business Houses needing Bookkeepers, Stenographers, Typewriters, Cashiers, Clerks, Foreign Correspondents, Telegraphers, Electricians, or Clerical Labor of any kind, can be immediately supplied.

CAMPBELL.

Post, telegraph and express offices, on the S P R R, narrow gauge, five miles south of San Jose. It is the center of the largest fruit growing and drying section in Santa Clara county, and is rapidly increasing in population. This section is watered by the Los Gatos creek, from which irrigating canals radiate in almost every direction. There are four excellent schools within a radius of one mile, and two Churches—Congregational and Methodist Episcopal. Two of the largest fruit driers in the country are located here, besides six or eight smaller concerns and one fruit cannery. Campbell has also one bank.

FROHM.

Formerly a postal town on the S P Co's narrow gauge Alameda branch railroad; 10 miles south of San Jose. Postoffice discontinued July 1, 1902. For names see Los Gatos.

GILROY.

Gilroy City, on the Coast Division of the S P R R, 30 miles south from San Jose. Population 2,500; the business center for the 6,000 people in the southern end of the county; is an old town, but a substantial, growing place, with a rich territory, producing large quantities of hay, grain, fruit, vegetables, cattle, dairy products, and hogs. Near here are the largest seed farms. Nearby, in the mountains, are the famous Gilroy Hot Springs. Well equipped grammar and high schools.

MAYFIELD.

On the Coast Division of the S. P. Co., 16 miles northwest of San Jose and within the last year has become one of the liveliest towns in the country, is now experiencing a rapid growth in population and improvements. The adjoining townsites, College Terrace, Sunnyside, Evergreen and Leland, all thriving communities, are practically part of Mayfield. Mayfield enjoys, with Palo Alto, the honor of being a Stanford University town. Many students of the University Board live in College Terrace

and Mayfield. The sister city of Leland, now well under way, is the cause of great activity here. A bank, postoffice, express office, telephone, telegraph and grammar school with five teachers are a few of the many lines of business represented here. A new depot is now in course of construction, to be used jointly as a station for Mayfield and Leland City. The new cut-off railroad from Los Gatos, shortening the distance by rail to San Francisco, will soon be completed. A marvelous increase in population is expected, in view of the increased activities. Present population 2000.

PHONE RED 5116

68 SOUTH SECOND STREET

PALO ALTO.

A mile north of Mayfield is the growing university town of Palo Alto, a place of 6500 people. The San Jose and Santa Clara Interurban Railroad has recently installed an up-to-date street car service. The town is now spending \$250,000 in street work. It has over 20 miles of cement sidewalks.

This little city, with its property valued at \$3,000,000, has been created in twelve years. Its proximity to the grounds of Stanford University, its fine climate and excellent society, the character of its government, making it ideal for homes, has resulted in unexampled prosperity. There are few towns indeed that can show such uniformly attractive houses. The place has kindergartens, private schools, two preparatory academies, grammar and high schools, etc. The public school buildings cost \$100,000. The town owns an electric light, sewer and water system, has a free library, bank, newspapers and many business houses. There are no saloons, but many churches.

For names see Palo Alto.

SUNNYVALE.

(Formerly Encinal.)

Eight miles northwest from San Jose and nine miles southeast
from Stanford University, on the double track of the Southern
Pacific Railroad, forty-three miles to San Francisco, elevation
ninety-three feet. Already expended in manufactures over
\$600,000. Fruit shipping center of the west side of the great
Santa Clara Valley. An ideal residence section. Has several
large manufacturing concerns. Bank, postoffice, express and
telegraph offices. Best educational facilities. A growing and
progressive town, with a great future.

Secretary's Office, 89 Third Avenue New York.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD.

Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.

TAHITI

The land of bread fruit, cocoanuts and flowers. Clement Wragge, in "The Romance of the South Seas," says:

"Tahiti is the island of the gods! People don't know, they have no conception of the glories of these islands. The Globe-trotter follows the beaten track and leaves this fascinating spot out. One should go not only for the short stay that the steamer remains in port, but stay over a steamer and become acquainted with the natives in their picturesque villages."

BOOK NOW FOR SAILING

S. S. MARIPOSA sails every 12 days. Reduced rate, \$125.00 for round trip. Send for folder to **673 Market street.**

Voyage, 36 days, each way. Telephone, Temporary 1231.

HONOLULU

For Your Vacation! ONLY \$125 ROUND TRIP

S. S. ALAMEDA

This favorite steamer of the Oceanic Line sails every two weeks to Hawaii. Every one should make this most desirable trip. Book now and get the best accommodations. a generous welcome in the islands. There's nothing like it.

Sailings every 21 days. Telephone
